Community Partnership Teams Annual Report

2015/2016 School Year

This document was produced by the Beaverton School District of Beaverton, Oregon to capture the ways in which various businesses, churches, non-profits, and other organizations and individuals partner with the public schools. In this version, we have kept all the projects and partners, but omitted the names of the individual schools. We have highlighted the name of each faith partner, to draw attention to the many churches involved and the types of offerings they are making. Two of the most common projects are to fill backpacks with food or school supplies for needy families, or to assist with a holiday toy or food drive. This list of concrete projects can be used as a resource for parishes and individuals looking for ways to engage with the local community, especially in the schools.

C.O.M.E. = Commission for Orthodox Missions & Evangelism
